- 1 Years 6 months Experience in iOS App Development.
- Skilled in Swift Programming, iOS SDK, Cocoa Touch, SwiftUI.
- Understanding of Apple's design principles and interface guidelines.
- Worked on multiple iOS frameworks and multiple versions of iOS.
- Have experience working on multiple screen sizes (iphones, ipads).
- Participate in all aspects of the software development lifecycle for our projects
- Understanding of core iOS development concepts, including application architectures, lifecycles, user interface layout and customization, and components such as UICollectionView
- UIKit, Map Kit, Keychain
- Handling local DB

Education:

- B. Tech (computer science) from BIST, Bhopal.

Technical Skills:

Swift, SwiftUI, X-Code, Auto Layout, Cocatouch, Git, MVVM, CoreData

Professional Experience:

IT Path Solution.

- Working as a IOS Developer for **IT Path**.

Details :

Duration : Dec 2020-Till Date.

Role : IOS Developer.

Project :

Fitfin:

Role:-Build, Develop and deploy as developer.

Shopping and Grocery list scanner scans your receipts and automatically adds expenses to track against your budget. You can search receipts by date, store or keyword.Organizing your expenses and receipts allow you to have a better control over your money. Fitfin acts as your personal budget planner and helps you save money like a boss

QRCoupon:

Role:- Maintenance and some feature development

This application will turn your smartphone into a digital wallet for your coupon cards. You can add stores, and coupons. Search & filter option to search store in application. The user can also make the payout using UPI. Users also share coupons with friends. Users can lock coupons, expired coupons are turned off

Parental Control App:

Role:- Design and Develop the App

Parental control app educating mathematics through artificial intelligence and mobile device management.

Turn screen time into study time with Parental Control App- the new way of thinking of “revision.” Children learn at a customized pace via small incremental mental challenges and are rewarded for their efforts. Integrate micro-learning moments into everyday screen time. If you’ve ever tried to ban your child from their phone or tablet to get homework done, you know it never works. 1 Question rewards learners by seamlessly fitting study questions into the way they already use their devices, so nobody has to compromise.

Roles & Responsibilities:

- ☐ Writing modular code and perform unit testing Produce and maintain well-documented code Fixing of bugs Perform code reviews
